Shopify Catalogue Data & Operations Specialist

Bohol, Philippines | beatruxitem.va@gmail.com | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Shopify Catalogue Data & Operations Specialist focused on backend Shopify catalogue and ecommerce operations, product catalogue data accuracy, and clean, standardized product data. Hands-on portfolio work includes one Shopify practice store plus supporting projects in supplier data cleanup, variant architecture, and catalogue merchandising. Work includes bulk catalogue updates, supplier data mapping, SKU and variant management, collection organization, product SEO fields, image and alt text audits, reconciliation, and catalogue QA using Shopify Admin, Matrixify, CSV files, Microsoft Excel, and Google Sheets. Brings prior customer support and data entry experience with a strong emphasis on accuracy, documentation, and cross-team coordination.

Collaboration & Productivity: Slack; Google Workspace; Notion; ChatGPT; Claude; Gemini; Canva

RELEVANT SHOPIFY CATALOGUE PROJECTS

Nest & Nurture - Shopify Catalogue Audit & Operations

Independent Practice Store Project

- Reviewed 28 product descriptions during catalogue QA; separately validated all 27 Active storefront product pages and documented product catalogue, catalogue organization, navigation, collection, image, and storefront issues.
- Executed two controlled one-row Matrixify UPDATE tests against an existing product variant: one accepted update and one mismatched-key UPDATE failure, followed by Shopify reconciliation.
- Managed SKU and variant QA, collection organization, navigation, image, alt text, and product catalogue QA workflows within the Shopify practice store.

Supporting Independent Practice Projects

- Northstar Supply: Reviewed 18 supplier rows, mapped supplier data into Shopify/Matrixify-style staging fields and staging files, cleared 11 rows for staging, and held 7 rows across 6 documented exception types.
- Harbor & Thread: Structured 24 product variants across 3 apparel products, generated and validated 24 unique SKUs, standardized size/color values, checked variant structure and option consistency, organized 3 collections and filters, and prepared and validated a 24-row bulk update staging set.
- Morrow Home: Normalized product taxonomy across 12 products, organized 4 room-based collections and 5 navigation targets, and prepared product SEO titles and meta descriptions for 12 products plus 24 image-specific alt text entries.

PROFESSIONAL EXPERIENCE

Customer Service Representative | Boundless Immigration

June 2023 - February 2026

- Communicated with customers by phone, email, and chat while handling questions about products, pricing, availability, and next steps.
- Maintained accurate customer information and transaction records, performed needs analysis, and documented recommendations and updates.
- Coordinated with internal teams to resolve customer issues and support accurate, consistent information across workflows.

Boundless Tools: Front; Dialpad; Aircall; Adobe Acrobat
