Shopify Catalogue Data & Operations Specialist

Bohol, Philippines | beatrixitem.va@gmail.com | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Shopify Catalogue Data & Operations Specialist focused on backend ecommerce catalogue operations, product-data accuracy, bulk updates, SKU and variant integrity, collection organization, and catalogue QA. Hands-on portfolio work includes one Shopify practice store plus supporting projects in supplier-data cleanup, variant architecture, and catalogue merchandising using Shopify Admin, Matrixify, CSV, Microsoft Excel, and Google Sheets. Brings prior customer support and data-entry experience with a strong emphasis on accuracy, documentation, and cross-team coordination.

CORE SKILLS

Shopify & Ecommerce Catalogue Operations: Shopify catalogue audit and cleanup; product data management; product catalog management; product and variant management; SKU and variant mapping; collection architecture; catalogue organization; product SEO; image and alt text audits; Shopify Admin; Sidekick; catalogue QA

Data & Bulk Operations: Matrixify; CSV import/export; bulk catalogue updates; supplier data mapping; field mapping; staging files; data validation; exception handling; update-only operations; import/export QA; post-import reconciliation; Microsoft Excel; Google Sheets

Collaboration & Productivity: Slack; Google Workspace; Notion; ChatGPT; Claude; Gemini; Canva

RELEVANT SHOPIFY CATALOGUE PROJECTS

Nest & Nurture - Shopify Catalogue Audit & Operations

Independent Practice Store Project

- Reviewed 28 product descriptions during catalogue QA; separately validated all 27 Active storefront product pages and documented catalogue, navigation, collection, image, and storefront issues.
- Executed two controlled one-row Matrixify UPDATE tests against an existing product variant: one accepted update and one mismatched-key UPDATE failure, followed by Shopify reconciliation.
- Managed SKU, variant, collection, navigation, image, alt text, and catalogue QA workflows within the Shopify practice store.

Supporting Independent Practice Projects

- **Northstar Supply:** Reviewed 18 supplier rows, mapped supplier data into Shopify/Matrixify-style staging fields, cleared 11 rows for staging, and held 7 rows across 6 documented exception types.
- **Harbor & Thread:** Structured 24 variants across 3 apparel products, generated 24 unique SKUs, standardized size/color values, organized 3 collections and filters, and prepared and validated a 24-row bulk-update staging set.
- **Morrow Home:** Normalized taxonomy across 12 products, organized 4 room-based collections and 5 navigation targets, and prepared SEO titles and meta descriptions for 12 products plus 24 image-specific alt text entries.

PROFESSIONAL EXPERIENCE

Customer Service Representative

Boundless Immigration | June 2023 - February 2026

- Communicated with customers by phone, email, and chat while handling questions about products, pricing, availability, and next steps.
- Maintained accurate customer information and transaction records, performed needs analysis, and documented recommendations and updates.
- Coordinated with internal teams to resolve customer issues and support accurate, consistent information across workflows.

Boundless Tools: Front; Dialpad; Aircall; Adobe Acrobat
